GOOD ARGUMENTS FOR STATEHOOD.

To The Citizen.

Washington, April 15.-Some good friend, presumably Mr. Rodey, has kindly sent me a copy of your large of the 10th inst., in whehrially comment upon the importance of statehood for New Mexico, and, it eidentally, refer to my services to the territory. Nowadays, one so rarely one's affruistle aims appreciated that you my most sincere thanks for your conrecous acknowledgment of my efforts to protect our terr-torial water rights. Having taken up the great work of

impounding the flood waters of the Rto Grande at Elephant Butte, and enterprise in the Rio Grande valley, I have naturally come to consider the future development of New Mox-ico, as a whole, as an integral part of my life work. I have now for over seven years identified myself with the development of the Grande valley, and of course I have calized long since that anything that affects prejudicially or otherwise, the future of New M. sico as a whole, past perforce likewise affect my un-lertaking. I take the liberorging you to strenoously take up the cause of statebood in the colimus of your journal. May I ven ure to suggest that you make state bood the keynote of your editorial policy from now on; that you leave no stone unturned, and miss no opportu-nity to induce the people of the ter-
